

MSTART provides quality consulting services in business performance management.

MSTART has a unique blend of expertise and experience that enables us to provide quality services to our clients. We treat our clients like partners and that is how we like to work, as we actually understand their business, their issues and requirements.

We provide development services to clients wishing to implement business performance management (BPM), balanced scorecard, business intelligence and management reporting solutions. We have partnered with Pilot Software, a leading provider of performance management solutions. In recent years, various EBPM methodologies have emerged, including the Balanced Scorecard, Six Sigma, Total Quality Management (TQM), and the Malcolm Baldrige Award for Quality.
